COMMUNITY SURVEY FOR A HAZARDOUS WASTE POST-CLOSURE PERMIT RENEWAL AT FORMER TP INDUSTRIAL, INC. FACILITY, GARDENA, CALIFORNIA

Dear Community Member:

The Department of Toxic Substances Control (DTSC) invites you to complete and return the enclosed community survey to help us evaluate your interest on the upcoming renewal of a post-closure permit for the TP Industrial, Inc. Facility (TPI). The facility is located at 525 E. Alondra Blvd., Gardena, California, 90248. Your responses will help us understand your concerns, plan future community involvement opportunities, and keep you informed of future activities. **Please complete the enclosed community survey questionnaire and return it to DTSC by February 19, 2007.**

The TPI facility, which used to distribute and treat chemical solvents, is now closed. Earlier investigations at this site identified soil and groundwater contamination beneath the 1.5 acre site. The contamination occurred during the facility's 33-year history and resulted from chemical leaks in drums, pipes and underground storage tanks. TPI began groundwater cleanup in 1988 under the oversight of the DTSC, a state regulatory agency. In the near-future TPI will be seeking renewal of its post-closure permit, which specifies long-term cleanup requirements, and monitoring of the former hazardous waste management units. It also requires corrective action at portions of the facility that were not hazardous waste management units.

The Department of Toxic Substances Control is a department within the California Environmental Protection Agency that regulates the generation, storage, treatment, and disposal of hazardous waste in California.

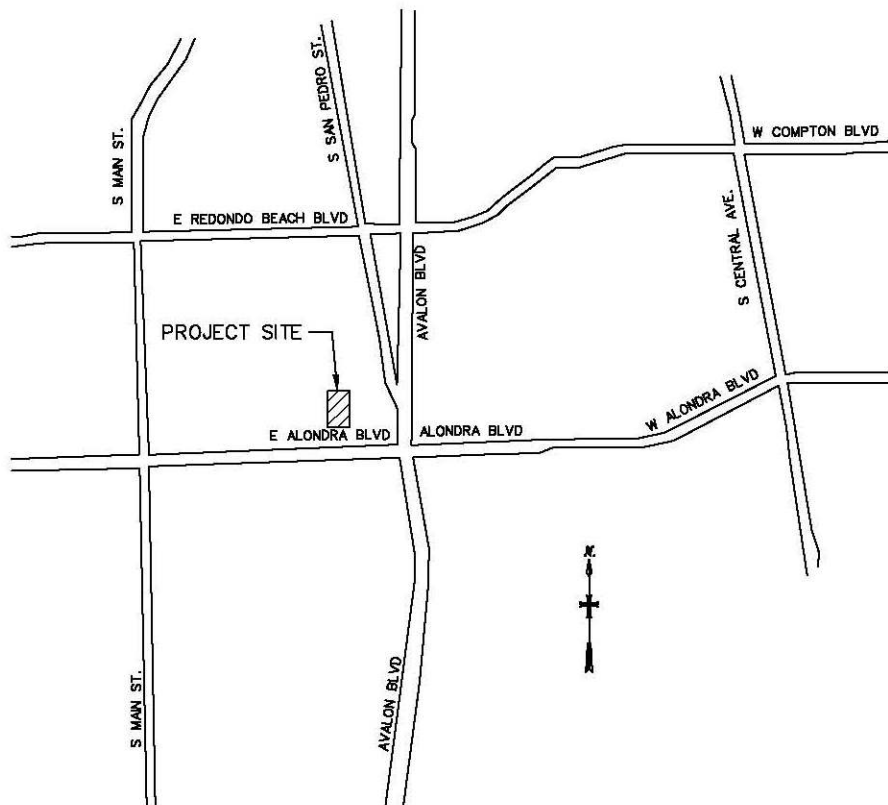

Thank you for taking the time to fill out and return this community survey. If you have any questions about the post-closure permit please call Mr. Richard Allen, DTSC Project Manager at (818) 551-2924 (email: rallen2@dtsc.ca.gov). Or, if you have any

questions regarding the attached survey or upcoming public participation activities, please call me at (714) 484-5474 (email: cmiller@dtsc.ca.gov).

Sincerely,

Cynthia Miller
